DETAILED ACTION

Allowable Subject Matter

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach either singly or in combination an optical transponder comprising a first two can having a first insulating base, a photodetector mounted on a first side of the first insulating base, and a metal cap hermetically sealed to the first side of the first insulating base to enclose the photodetector and a second TO can having a second insulating base, a light generation device mounted on a first of the second insulating base and a metal cap hermetically sealed to the first side of the second insulating base to enclose the light generation device, wherein the first and second TO cans are within a transponder housing regarding claim 1, an optical receiver that receives optical signals at a rate of 10Gb/s is housed in a first TO can, an optical transmitter that transmits optical signals at a rate of 10Gb/s is housed in a second TO can, wherein the optical receiver and the optical transmitter each have an insulating base having a first surface with a plurality of electrical leads running through the insulating base into an interior of the optical receiver and the optical transmitter and an opposite surface on an exterior of the first and second TO can regarding claim 6 and claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
